

1	aberrans	aberrant	36	albescens	whitening, turning white
2	abietina	resembling Abies (fir tree)	37	albicans	becoming white, not quite white
3	acaule	stalkless	38	albida	whitish
4	acaulis	stalkless	39	albidula	whitish
5	accumbens	lying down	40	albidulus	whitish
6	acerosa	needle-like foliage	41	albidum	whitish
7	acmopetala	pointed petals	42	albidus	whitish
8	acranthus	flowers at apices (tips)	43	albina	whitish
9	acre	acrid, bitter taste	44	albinum	whitish
10	acuminatus	tapering gradually to a point	45	albinus	whitish
11	adeno-	prefix for glandular or sticky	46	albissima	whitest
12	adhatoda	not touched by goats	47	albissimus	whitest
13	admirabilis	wonderful!, astonishing!!	48	albocaerulescens	white becoming light blue
14	adpressus	pressed against	49	albocinereus	ash white
15	adstringens	binding together	50	albofuscenscens	white becoming dusky
16	adumbratus	counterfeit	51	albogilvus	very light yellow
17	aduncus	bent, crooked, curved, hooked	52	albohyalinus	glassy white
18	aequilobus	3 equal lobes	53	albolutescens	white becoming green
19	aereus	bronze	54	alboniger	white black (?)
20	aestivus	of summer	55	albonigra	white black
21	affinis	related to, allied to	56	albonigrum	white black
22	agastus	charming	57	algida	cold
23	agglomeratus	balled (as, in a ball)	58	algidus	cold
24	agglutinated	stuck together	59	alpeophila	mountain loving
25	aggregatulus	joined in little clusters	60	alpeophilus	mountain loving
26	aggregatus	joined in clusters, apparently larger ones	61	alpestris	of low mountains; growing in mountains
27	agraria	growing in fields	62	alpicola	mountain growing
28	agrarius	growing in fields	63	alpigenus	originating in the mountains
29	agrostis	grassy	64	alticola	dweller in the heights
30	aizoon	evergreen	65	altimontana	growing on high mountains
31	alata	winged	66	altimontanus	growing on high mountains
32	alatus	winged	67	alveolata	channelled
33	albella	almost white	68	alveolatus	channelled
34	albellus	almost white	69	amabilis	deserves to be loved
35	albens	whitened	70	amplexa	clasped

71	amplexifolia	leaves clasped	106	apiifolia	parsley-leaved
72	amplexifolius	leaves clasped	107	apiifolius	parsley-leaved
73	amplexus	clasped	108	aquatica	in water
74	amygdalina	of almonds	109	aquaticus	in water
75	amygdalinus	of almonds	110	aquatilis	living in water
76	anacantha	without spines	111	aquea	clear like water
77	anacanthus	without spines	112	aqueus	clear like water
78	anemophila	wind-loving	113	aquifolia	holly like
79	anemophilus	wind-loving	114	aquifolius	holly like
80	angulosa	with corners, prominent ridges	115	aquilegifolia	leaves like the genus Aquilegia
81	angulosus	with corners, prominent ridges	116	aquilegifolius	leaves like the genus Aquilegia
82	angustata	narrowed	117	arachnoides	like a spider or spider's web
83	angustatus	narrowed	118	arborescens	tree like
84	angustifoliata	narrow leaves	119	arboricola	living in trees
85	angustifolius	narrow leaves	120	arbuscula	dwarf tree
86	annua	annual	121	arcana	closed
87	annularis	ring shaped, ringed	122	arcanus	closed
88	annuus	annual	123	arenaria	relating to sand
89	anopetala	petals ascending	124	arenarius	relating to sand
90	anopetalus	petals ascending	125	arenicola	living in sand
91	anosma	unscented	126	argentea	silvery
92	anosmus	unscented	127	argenteus	silvery
93	anserina	belonging to geese	128	argillicola	growing in clay
94	anserinus	belonging to geese	129	arguta	sharply toothed
95	anthopogon	bearded flower	130	argutus	sharply toothed
96	anthracina	the color of coal	131	argyraeus	silvery
97	anthracinus	the color of coal	132	argyrotricha	silvery haired
98	aperta	open	133	argyrotrichus	silvery haired
99	apertus	open	134	aristata	long bristle-like tip
100	apetala	without petals	135	aristatus	long bristle-like tip
101	apetalus	without petals	136	armiger	spiny, prickly
102	aphylla	leafless	137	armigera	spiny, prickly
103	aphyllus	leafless	138	armillaris	collared
104	apiculata	abrupt short point	139	articulata	jointed
105	apiculatus	abrupt short point	140	articulatus	jointed

141	arundinacea	reed like	176	axillaris	in leaf axils
142	arundinaceus	reed like	177	azurea	deep blue
143	arvense	of cultivated fields	178	azureum	deep blue
144	arvensis	of cultivated fields	179	azureus	deep blue
145	asper	rough	180	baccata	bearing berries
146	aspera	rough	181	baccatus	bearing berries
147	aspersa	scattered	182	barbata	bearded
148	aspersus	scattered	183	barbatus	bearded
149	assurgens	rising up	184	basilica	royal
150	astricta	drawn together	185	basilicus	royal
151	astrictus	drawn together	186	betuloides	like Betula (birch)
152	ater	black	187	bifurcata	forked
153	atra	black	188	bifurcatus	forked
154	atrata	black	189	bilabiata	two lips
155	atratus	black	190	bilabiatus	two lips
156	atro-	prefix meaning very dark	191	biternata	with two sets of three
157	atropurpurea	dark purple	192	biternatus	with two sets of three
158	atropurpureus	dark purple	193	blepharosepala	fringed sepal
159	atrosanguinea	deep red	194	blepharosepalu s	fringed sepal
160	atrosanguineus	deep red	195	bombycifer	silk bearing
161	atrovirens	dark green	196	bombycifera	silk bearing
162	atrum	black	197	bombycis	silky
163	attenuata	weak	198	borealis	northern
164	attenuatus	weak	199	botryodes	grape like, clustered
165	aureata	with gold	200	botryoides	grape like, clustered
166	aureatus	with gold	201	botrys	grape
167	aureo-reticulata	with a gold net	202	brachy	prefix meaning "short"
168	aureo-reticulatu s	with a gold net	203	bractealis	with bracts
169	aurescens	becoming golden	204	bracteata	with bracts
170	auroralis	of the morning	205	bracteatus	with bracts
171	aurorea	pink	206	brevi	prefix meaning "short"
172	aureus	pink	207	bryoides	moss-like
173	australe	southern	208	bullata	inflated, knobby
174	australis	southern	209	bullatus	inflated, knobby
175	avenoides	oat like	210	caelestinus	sky blue

211	caelestis	sky blue	246	capillaris	hair-like
212	caerulea	blue	247	capillipedes	slender stalked
213	caeruleus	blue	248	capillipes	slender stalked
214	caesium	bluish gray	249	capitatum	with a head
215	caesius	bluish gray	250	capitatus	with a head
216	caespitosum	tufted	251	capnodes	smoke colored
217	caespitosus	tufted	252	capnoides	smoke colored
218	calamus	reed	253	cardinalis	red
219	calcareus	chalky, limey, of limestone	254	cardio-	prefix meaning "heart"
220	calceolata	slipper-shaped	255	carneolus	flesh-colored
221	calceolatus	slipper-shaped	256	carneus	flesh-colored
222	calceolus	small shoe		caryophyllaceu	
223	calcicola	limestone loving	257	s	pinkish
224	calciphilus	limestone loving	258	caryophyllus	pinkish
225	calendula	long lived	259	castanea	chestnut-colored
226	calli-	prefix meaning "beautiful"	260	castaneum	chestnut-colored
227	callianthemum	beautifully-flowered	261	castaneus	chestnut-colored
228	callianthus	beautifully-flowered	262	catenatum	chained
229	callicarpa	beautiful seed	263	catenatus	chained
230	callicarpus	beautiful seed	264	cathartica	purgative
231	callosa	calloused	265	catharticum	purgative
232	callosum	calloused	266	caudata	with a tail
233	callosus	calloused	267	caudatum	with a tail
234	campanulata	bell-shaped	268	caulescens	not with a full stem
235	campanulatus	bell-shaped	269	caulialata	with a winged stem
236	campester	of fields	270	caulialatus	with a winged stem
237	campestre	of fields	271	cauticola	growing on cliffs
238	campestris	of fields	272	cauticolus	growing on cliffs
239	campyla-	prefix meaning "curved"	273	cavum	concave
240	campylo-	prefix meaning "curved"	274	cavus	concave
241	candicans	becoming white	275	cephalanthus	flowering head
242	candidissima	whitest	276	ceraceum	waxy
243	candidissimum	whitest	277	ceraceus	waxy
244	canescens	grayed	278	cernua	nodding
245	capillaceus	hair-like	279	cernuum	nodding
			280	cernuus	nodding

281	cheil-	prefix meaning "lipped"	316	comosa	covered with hair
282	chryseum	golden	317	concolor	one color
283	chryseus	golden	318	concoloris	one color
284	ciliare	hair	319	connatus	fused together
285	ciliaris	hair	320	cord-	prefix meaning "heart"
286	ciliatus	hair	321	cordata	heart-shaped
287	cineraceus	ash colored, gray	322	cordatus	heart-shaped
288	cinerascens	ash colored, gray	323	coriacea	leathery
289	cinereus	ash colored, gray	324	coriaceus	leathery
290	cinnabarinus	cinnabar red	325	crass-	prefix meaning "thick"
291	circinatum	rounded	326	crenata	notched
292	circinatus	rounded	327	crenatum	notched
293	citrellus	lemon yellow	328	crenatus	notched
294	citreus	lemon yellow	329	crenulum	crenate, with small rounded teeth
295	citrinellus	lemon yellow	330	crenulatus	crenate, with small rounded teeth
296	clandestina	hidden	331	cretaceus	color of chalk
297	clandestinus	hidden	332	creteus	color of chalk
298	clausa	closed	333	crinita	long haired
299	clausus	closed	334	crinitus	long haired
300	coccifer	berry bearing	335	crispatus	curly
301	coccifera	berry bearing	336	crispum	curly
302	coccinea	scarlet	337	crispus	curly
303	coccineum	scarlet	338	crocatus	saffron yellow
304	cochlear	spoon shaped	339	croceus	saffron yellow
305	coelestina	sky blue	340	crocinus	saffron yellow
306	coelestis	sky blue	341	cruciata	crossed
307	coerulea	deep blue	342	cruciatus	crossed
308	coeruleus	deep blue	343	crustaceus	crust like, brittle
309	collina	on hills	344	crustatus	crust like, brittle
310	collinus	on hills	345	cucullarius	hooded
311	comans	covered with hair	346	cucullatus	hooded
312	comatus	covered with hair	347	cuneatus	wedge-shaped
313	communis	common	348	cupreatus	copper color
314	commutatum	changeable	349	cuprescens	copper color
315	commutatus	changeable	350	cupreus	copper color

351	cuspidata	with stiff point	386	dissectus	finely cut leaves
352	cuspidatus	with stiff point	387	divaricata	spreading
353	cyanascens	bluish	388	divaricatus	spreading
354	cyanum	blue	389	domestica	cultivated
355	cyanus	blue	390	domesticus	cultivated
356	cymbi-	prefix meaning "boat-shaped"	391	dulcis	sweet
357	dactyloides	finger like	392	dumosa	bushy
358	dasy	prefix meaning "hairy"	393	dumosus	bushy
359	dealbata	whitened	394	echinus	spiny
360	dealbatus	whitened	395	edulis	edible
361	decorus	beautiful	396	elatior	higher
362	decumbens	stems lying down	397	emarginatus	with notched margin
363	decussata	crossed like the letter X	398	ensata	sword-like
364	decussatus	crossed like the letter X	399	ensatus	sword-like
365	deltoides	triangular; like letter Delta	400	eria-	prefix meaning "wooly"
366	dens-canis	dog's tooth	401	erica-	prefix referring to Heath and Heather family
367	diandra	two stamens	402	erio-	prefix meaning "wooly"
368	diandrus	two stamens	403	erythro-	prefix meaning "red"
369	dicarpum	two seeds	404	esculenta	edible
370	dicarpus	two seeds	405	esculentus	edible
371	dichotoma	dividing into pairs	406	exaltatum	very tall
372	dichotomus	dividing into pairs	407	exaltatus	very tall
373	didyma	in pairs	408	excisa	cut away
374	didymus	in pairs	409	falcatus	sickle-shaped
375	diffusa	spreading	410	farinaceus	mealy
376	diffusum	spreading	411	farinosus	mealy
377	diffusus	spreading	412	fastigiata	narrowly erect
378	digitalis	finger like	413	fastigiatus	narrowly erect
379	dimorpha	with two forms	414	fenestrellata	with little windows
380	dimorphus	with two forms	415	ferruginea	rust colored
381	dioica	dioecious; male & female flowers on different plants	416	filamentosa	many filaments
382	dioicum	dioecious; male & female flowers on different plants	417	filamentosum	many filaments
383	dioicus	dioecious; male & female flowers on different plants	418	fili-	prefix meaning "thread"
384	discolor	two colors	419	filic-	prefix or referring to "fern"
385	dissectum	finely cut leaves	420	filix-	prefix or referring to "fern"

421	fimbriata	fringed	456	fulva	tawny
422	fimbriatus	fringed	457	fulvus	tawny
423	firma	strong	458	fungosa	spongy
424	firmus	strong	459	fungosus	spongy
425	fistulosa	tubular	460	furcata	cleft
426	fistulosus	tubular	461	fusca	dark
427	flabellata	fan like	462	fuscus	dark
428	flabellatus	fan like	463	garganica	of Monte Gargano, Italy
429	flagellaris	with flagella	464	garganicus	of Monte Gargano, Italy
430	flagellifera	with flagella	465	gibbosa	humped
431	flava	yellow	466	gibbosus	humped
432	flavens	golden yellow	467	gibbus	humped
433	flavescens	yellowish	468	glabella	nearly glabrous
434	flexicaulis	bent or flexed stem	469	glabellus	nearly glabrous
435	flexilis	flexible	470	glaber	smooth, hairless, bald
436	flexipedes	bent stem	471	glabra	smooth, hairless, bald
437	flexipes	bent stem	472	glabrescens	becoming glabrous
438	flexuosa	bending, curved	473	glabrous	smooth, hairless, bald
439	flexuosus	bending, curved	474	glandulifer	bearing little glands
440	floribunda	profusely flowered	475	glandulifera	bearing little glands
441	floribundus	profusely flowered	476	gracilis	thin, slender
442	florida	flowering	477	gramineus	grass-like
443	floridus	flowering	478	graminifolia	grass-leaved
444	foetida	unpleasantly scented	479	graminifolius	grass-leaved
445	foetidus	unpleasantly scented	480	grandiflora	large-flowered
446	foliolosa	having small leaves	481	grandiflorus	large-flowered
447	formosa	beautiful	482	grandifolia	large-leaved
448	formosissima	most beautiful	483	grandifolius	large-leaved
449	fragilis	brittle, fragile	484	graveolens	strong smelling
450	frondosa	leafy	485	griseum	gray
451	frondosus	leafy	486	griseus	gray
452	frutescens	becoming shrubby	487	gummifer	gum-bearing
453	fruticosa	shrubby	488	gummifera	gum-bearing
454	fruticosus	shrubby	489	guttata	spotted
455	fulgens	shining	490	guttatum	spotted

491	guttatus	spotted	526	infundibular	funnel-shaped
492	gypsicola	growing in lime	527	insignis	remarkable
493	hastata	spear-shaped	528	integer	entire, untoothed
494	hastatus	spear-shaped	529	integra	entire, untoothed
495	helix	winding around, spiraling	530	integrifolia	leaves entire
496	hirsuta	hairy	531	integrifolius	leaves entire
497	hirsutum	hairy	532	involucrata	with a wrapper, covering
498	hirsutus	hairy	533	involucratus	with a wrapper, covering
499	hirta	also hairy	534	isophylla	equal sized leaves
500	hirtum	also hairy	535	isophyllus	equal sized leaves
501	hirtus	also hairy	536	labiatus	lipped
502	hispida	bristly	537	laciniata	deeply cut, lacy
503	hispidus	bristly	538	laciniatus	deeply cut, lacy
504	horridulus	prickly, bristly	539	lactea	milky
505	horridus	prickly, bristly	540	lacteus	milky
506	hortensis	of garden(s)	541	lacustris	growing by lakes or ponds
507	horti	of garden(s)	542	laevigata	smooth
508	hortorum	of garden(s)	543	laevigatus	smooth
509	humilis	low growing	544	laevis	smooth
510	hyemalis	of winter	545	lanata	woolly
511	hymenoides	membranous	546	lanatus	woolly
512	hyperborea	extreme northern	547	lanosa	woolly
513	hyperboreus	extreme northern	548	lanosus	woolly
514	imbricans	overlapping	549	lanuginosa	downy
515	imbricatus	overlapping	550	lanuginosus	downy
516	implexus	interwoven	551	lanulosa	fuzzy
517	incanescens	becoming white	552	lanulosus	fuzzy
518	incarnata	flesh pink	553	lasia-	prefixes meaning "woolly"
519	incarnatus	flesh pink	554	lasio-	prefixes meaning "woolly"
520	incisa	deeply cut	555	lati-	prefix meaning "broad"
521	incisus	deeply cut	556	lax-	prefix meaning "loose"
522	indivisus	undivided	557	leio-	prefix meaning "smooth"
523	inflata	swollen	558	lenta	prefix meaning "pliable"
524	inflatus	swollen	559	lentus	prefix meaning "pliable"
525	inflexus	bent	560	lepido-	prefix meaning "scale"

561	lepta-	prefix meaning "thin" or "slender"	596	macranthera	large anthered
562	lepto-	prefix meaning "thin" or "slender"	597	macrantherus	large anthered
563	leptopodi	slender-stalked	598	macranthus	large flowered
564	leptopus	slender-stalked	599	macro-	prefixes meaning "large"
565	leucanthema	white-flowered	600	macrocarpa	large fruited
566	leucanthemum	white-flowered	601	macrocarpus	large fruited
567	lignosa	woody	602	maculata	spotted
568	lignosum	woody	603	maculatus	spotted
569	ligulata	tongue-like	604	magna	large
570	ligulatus	tongue-like	605	magnus	large
571	lingua-	prefix meaning "tongue"	606	majalis	in May
572	lingui-	prefix meaning "tongue"	607	mares	male, robust,
573	lithophila	stone-loving	608	marinus	near the sea
574	lithophilus	stone-loving	609	maritimus	near the sea
575	litoralis	of the sea shore	610	marmoraria	marbled
576	littoralis	of the sea shore	611	marmorata	marbled
577	lobata	lobed	612	marmorea	marbled
578	lobatus	lobed	613	mas	male, robust,
579	longipedes	long stalked	614	masculus	male, robust,
580	longipes	long stalked	615	matronalis	of March 1st
581	lucida	shining, clear	616	media	intermediate
582	lucidum	shining, clear	617	medium	intermediate
583	lucidus	shining, clear	618	megacarpa	large seed
584	lunata	crescent shaped	619	megacarpus	large seed
585	lunulata	crescent shaped	620	melanocarpa	black-fruited or seeded
586	lurida	pale yellow	621	melanocarpus	black-fruited or seeded
587	luridus	pale yellow	622	melli-	prefix meaning "honey"
588	lutea	yellow	623	micra-	prefix meaning "small"
589	lutescens	yellowish	624	micrantha	small flowered
590	luteum	yellow	625	micranthus	small flowered
591	lychnitis	lamp like	626	micro-	prefix meaning "small"
592	lyrata	lyre shaped	627	millefolia	with 1,000 (a lot of) leaves
593	lyratus	lyre shaped	628	millefoliata	with 1,000 (a lot of) leaves
594	macra-	prefixes meaning "large"	629	millefoliatum	with 1,000 (a lot of) leaves
595	macrantha	large flowered	630	minima	small

631	minor	small	666	non-scriptus	unmarked
632	minus	small	667	notabilis	remarkable, notable
633	minuscula	very, very small	668	nucifer	nut bearing
634	minusculus	very, very small	669	nucifera	nut bearing
635	mira	wonderful, extraordinary	670	nudicaulis	bare stem
636	mirabilis	wonderful, extraordinary	671	nudiflora	naked flowering
637	mollis	soft	672	nummularia	coin-shaped
638	montana	mountain dweller	673	nutans	nodding
639	monticola	mountain dweller	674	obtusifolia	blunt leaved
640	mucronata	short point	675	occidentalis	of the west
641	mucronifolia	short pointed leaves	676	occulta	hidden
642	mucronifolium	short pointed leaves	677	odorata	fragrant, scented
643	multifida	multiply divided	678	odoratus	fragrant, scented
644	multisecta	multiply divided	679	odorus	fragrant, scented
645	muscicola	growing in moss	680	officinalis	sold as an herb; medicinal
646	muscoidea	moss like	681	orbicularis	circular
647	muscoides	moss like	682	orbiculatus	circular
648	nana	dwarf	683	orbiculus	circular
649	nanus	dwarf	684	oreophila	mountain loving
650	natans	floating	685	oreophilum	mountain loving
651	nebulosa	cloudy	686	osteosperma	bony seed
652	neglecta	overlooked	687	osteospermus	bony seed
653	neglectus	overlooked	688	oxy-	prefix meaning "sharp, pointed"
654	nemoralis	of the woods	689	pachy-	prefix meaning "thick"
655	nemoris	of the woods	690	pallida	pale
656	nemorosa	of the woods	691	pallidum	pale
657	nervosa	veined	692	palmatum	hand like
658	niger	black	693	palmatus	hand like
659	nigra	black	694	paludosa	marshy
660	nigrescens	blackish	695	paludosus	marshy
661	nigrum	black	696	parvi-	prefix meaning "small"
662	nitida	shining, bright, polished	697	patens	spreading
663	nivalis	of the snow	698	patula	spreading
664	nodosa	with conspicuous nodes	699	pauci-	prefix meaning "few"
665	non-scripta	unmarked	700	pauciramosa	few branches

701	pauciramosum	few branches	736	phyllo-	prefix meaning "leaf" or "leafy"
702	pavoninus	blue or having an eye	737	picta-	prefixes meaning "painted", "embroidered"
703	pectinata	comb like	738	picto-	prefixes meaning "painted", "embroidered"
704	pectinatum	comb like	739	pictu-	prefixes meaning "painted", "embroidered"
705	pedata	(bird's) foot like	740	pileata	capped
706	pedatifida	divided like a (bird's) foot	741	pileatus	capped
707	pedatisecta	divided like a (bird's) foot	742	pilo-	prefix meaning "hairy"
708	pedatus	divided like a (bird's) foot	743	pinnatisectus	pinnately divided
709	peduncularis	with a flower stalk	744	pinnatus	pinnately divided
710	pedunculatus	with a flower stalk	745	plani-	flat
711	peltata	shield-like	746	plano-	flat
712	pelviformis	bowl-shaped	747	plantaginea	like a plantain
713	pendulina	hanging, pendulous	748	platy-	prefix meaning "wide", "broad"
714	pendulinus	hanging, pendulous	749	plena	double
715	pennata	feathered	750	pleni-	prefix meaning "filled, full, abundant"
716	pennatum	feathered	751	plenum	double
717	peregrina	foreign	752	plumbea	colored like lead
718	peregrinum	foreign	753	plumbeus	colored like lead
719	perfoliata	leaves joined around stem	754	plumeus	downy, feathery
720	perfoliatum	leaves joined around stem	755	plumosus	downy, feathery
721	petasites	hat like	756	pluri-	prefix meaning "more"
722	petasitis	hat like	757	podo-	prefix meaning "foot, footed"
723	petiolaris	with petioles (leaf stalks)	758	poly-	prefix meaning "many"
724	petiolata	with petioles (leaf stalks)	759	porphyrea	dark purplish-red
725	petiolatus	with petioles (leaf stalks)	760	porphyria	dark purplish-red
726	petraea	growing with rocks	761	porphyrius	dark purplish-red
727	petraeus	growing with rocks	762	praecocis	early-ripening
728	petrophila	rock-loving	763	praecox	early-ripening
729	petrophilum	rock-loving	764	pratense	in meadows
730	petrosum	growing in very rocky conditions	765	pratensis	in meadows
731	petrosus	growing in very rocky conditions	766	princeps	distinguished
732	phaea	dusky, gray	767	principe	distinguished
733	phaeum	dusky, gray	768	procumbens	prostrate
734	phalaenopses	moth-like	769	procurrens	spreading
735	phalaenopsis	moth-like	770	ptarmica	causes sneezing

771	ptarmicus	causes sneezing	806	ramiflora	flowers on older branches
772	pube-	prefixes meaning "hair, hairy"	807	ramosa	branched
773	pubi-	prefixes meaning "hair, hairy"	808	ramosum	branched
774	pulcher	pretty, beautiful	809	recta	erect
775	pulchra	pretty, beautiful	810	recti-	erect
776	pulla	dark	811	rectus	erect
777	pullus	dark	812	recurvatus	curved back
778	pulverea	dusty	813	recurvus	curved back
779	pulveream	dusty	814	rediviva	coming back to life
780	pulverulenta	powdery	815	redivivum	coming back to life
781	pulverulentus	powdery	816	redolens	scented
782	pulvinaris	cushion like	817	regalis	royal
783	pulvinata	cushion like	818	regia	royal
784	pulvinatus	cushion like	819	regina	queen
785	pumila	dwarf	820	reginae	queen
786	pumilio	dwarf	821	regius	royal
787	punctata	spotted	822	religiosa	sacred
788	punctatum	spotted	823	religiosus	sacred
789	pungens	spiny, pungent	824	reni-	prefix meaning "kidney"
790	pusilla	very small	825	repanda	curved up
791	pusillus	very small	826	repandum	curved up
792	pycna-	prefix meaning "dense"	827	repens	creeping
793	pycno-	prefix meaning "dense"	828	reptans	creeping
794	pygmaea	dwarf	829	resinifer	resinous
795	pygmaeus	dwarf	830	resinifera	resinous
796	quadrangulare	four-angled	831	resinosa	very resinous
797	quercifolia	leaves like the oak	832	resinosus	very resinous
798	quinguecostata	five-ribbed	833	reticulata	netted
799	quinquecuspidata	five-pointed	834	retusa	blunt, notched tip
800	quinquefolia	leaves in fives	835	revoluta	rolled back
801	quinquenervia	with five veins	836	revolutus	rolled back
802	racemosa	with racemes	837	rex	king
803	racemosum	with racemes	838	rhizophylla	rooting leaves
804	radicans	with stems taking root	839	rhizophyllum	rooting leaves
805	radula	scraper-like	840	rhodotricha	red-haired

841	rhombica	diamond-shaped	876	sativum	cultivated
842	rhombiformis	diamond-shaped	877	sauveolentis	sweet-scented
843	rhomboidalis	diamond-shaped	878	saxa	rock
844	rhomboidea	diamond-shaped	879	saxatilis	growing among rocks
845	rigens	somewhat rigid	880	saxi-	rock
846	rigescens	somewhat rigid	881	saxicola	growing among rocks
847	rigidula	somewhat rigid	882	saxum	rock
848	ringens	gaping	883	scabiosa	rough
849	riparium	of river banks	884	scabra	rough
850	riparius	of river banks	885	scabrida	rough
851	rivalis	growing by a stream or river	886	scabrosa	rough
852	rivularis	growing by a stream or river	887	scandens	climbing
853	rivulus	growing by a stream or river	888	scapifera	with a scape (leafless flower stalk)
854	rostrata	beaked	889	scapigera	with a scape (leafless flower stalk)
855	rostratum	beaked	890	scolopendria	centipede-like
856	rotata	wheel-like	891	scolopendrium	centipede-like
857	rotatus	wheel-like	892	scoparia	broom-like
858	rotunda	round	893	scoparium	broom-like
859	rotundata	rounded	894	scopuli	of the cliff(s)
860	rotundus	round	895	scopulorum	of the cliff(s)
861	rubens	red	896	secunda	in a row, leaves on one side
862	ruber	red	897	secundum	in a row, leaves on one side
863	rubiginosa	rusty	898	septemfida	7 divisions
864	rubra	red	899	septentrionale	northern
865	rufa	reddish brown	900	septentrionalis	northern
866	rufus	reddish brown	901	seric-	prefix meaning "silk"
867	rupestre	found near rocks	902	serotina	late; in the evening
868	rupestris	found near rocks	903	serotinus	late; in the evening
869	saccharata	sugar, sweet	904	serpens	creeping
870	saccharum	sugar, sweet	905	serra	toothed, saw toothed
871	sagittalis	arrow-like or -shaped	906	serrata	toothed, saw toothed
872	sagittatus	arrow-like or -shaped	907	sessile	stalkless
873	sarmentosa	producing runners	908	sessilis	stalkless
874	sarmentosum	producing runners	909	seta-	prefixes meaning "bristley"
875	sativa	cultivated	910	seti-	prefixes meaning "bristley"

911	seto-	prefixes meaning "bristley"	946	stellulata	star-shaped, star-like
912	setu-	prefixes meaning "bristley"	947	stellulatus	star-shaped, star-like
913	signata	marked	948	sten-	prefix meaning "narrow"
914	signatus	marked	949	straminea	straw colored
915	simile	similar	950	stramineus	straw colored
916	similis	similar	951	striata	striped
917	simplex	simple	952	striatum	striped
918	simulans	imitating	953	stricta	upright
919	sinuata	wavy-edged	954	strictus	upright
920	sinuatus	wavy-edged	955	strigillosa	with tough, short bristles
921	sobolifera	having offshoots	956	strigosa	bristled
922	socialis	found in colonies	957	strobi	gum-yielding
923	somnifera	sleep inducing	958	strobis	gum-yielding
924	spathulata	with small spathe	959	suave	sweet
925	spathulatus	with small spathe	960	suaveolens	sweet-scented
926	speciosa	showy	961	suavis	sweet
927	speciosus	showy	962	subacaulis	almost stemless
928	spectabile	notable, spectacular	963	subacaulis	almost stemless
929	spectabilis	notable, spectacular	964	subalpina	from lower mountain heights
930	spica	in spikes	965	subalpinum	from lower mountain heights
931	spicata	in spikes	966	subcaulescens	with a short stem
932	spinosa	spiny	967	subulata	awl-shaped
933	spiralis	spiraled	968	subulatum	awl-shaped
934	splendens	shining, splendid, bright	969	suffrutescens	somewhat shrubby
935	splendida	shining, splendid, bright	970	suffruticosa	somewhat shrubby
936	spurium	FALSE	971	supina	lying down
937	spurius	FALSE	972	supinum	lying down
938	squamata	scaly	973	surculosa	suckering
939	squamea	scaly	974	surculosus	suckering
940	squamigera	scaly	975	suspensum	hanging
941	squamosa	scaly	976	suspensus	hanging
942	stellaris	star-like	977	sylvatica	growing in the woods, wild
943	stellata	star-like	978	sylvestris	growing in the woods, wild
944	stellatus	star-like	979	tarda	late
945	stelliformis	star-shaped, star-like	980	tardiva	late

981	fazetta	small cup	1016	triternata	three times divided into three
982	tecti	of the roof(s)	1017	triternatus	three times divided into three
983	tectorum	of the roof(s)	1018	tuberculata	with tubercles, bumps
984	tenella	tender, delicate	1019	tuberculifera	with tubercles, bumps
985	tenera	tender, delicate	1020	tuberculosa	with tubercles, bumps
986	tenuis	slender	1021	tuberosa	tuberous
987	tergestina	from Trieste	1022	tuberosus	tuberous
988	tergestinum	from Trieste	1023	tumida	swollen
989	ternata	in threes	1024	tumidus	swollen
990	ternatum	in threes	1025	turbinata	shaped like a toy top
991	tetrasticha	in 4 rows	1026	turbinatus	shaped like a toy top
992	tetrastichus	in 4 rows	1027	uberior	more abundant
993	thapsi	from Sicily	1028	uda	moist
994	thapsus	from Sicily	1029	udus	moist
995	thermalis	of warm springs	1030	uliginosa	in marshes
996	thyoides	citrus-like	1031	uliginosum	in marshes
997	tincta	colored	1032	ulmaria	elm-like
998	tinctoria	used in dyeing	1033	ulmarius	elm-like
999	tinctorius	used in dyeing	1034	umbrosa	shady
1000	tinctum	colored	1035	umbrosum	shady
1001	tomentosa	hairy, fuzzy	1036	uncinata	hooked
1002	tomentosum	hairy, fuzzy	1037	uncinatum	hooked
1003	tori	twisted	1038	undata	wavy-edged
1004	torta	twisted	1039	undulata	wavy-edged
1005	tortum	twisted	1040	unguicularis	with a claw
1006	tortuosa	twisted	1041	unguiculatus	with a claw
1007	tortuosum	twisted	1042	urceolata	pitcher-shaped
1008	torus	twisted	1043	urceolatus	pitcher-shaped
1009	trachelia	neck-like	1044	urens	stinging
1010	trachelius	neck-like	1045	urticifolia	leaves like stinging nettle
1011	triangularis	triangular	1046	urticifolium	leaves like stinging nettle
1012	triangulatus	triangular	1047	utile	useful
1013	tricho-	prefix meaning "hairy"	1048	utilis	useful
1014	triste	dull, sad	1049	utriculata	with bladders
1015	tristis	dull, sad	1050	utriculosa	with bladders

1051	vagans	wandering	1086	vesicaria	bladder-like
1052	vaginalis	with a sheath	1087	vesicarius	bladder-like
1053	vaginata	with a sheath	1088	vestita	clothed
1054	vaginatus	with a sheath	1089	vestitum	clothed
1055	vagus	wandering	1090	villos-	prefix meaning "hairy"
1056	valida	robust	1091	virens	green
1057	validus	robust	1092	virgata	twiggy, wand-like
1058	varicosa	dilated veins	1093	virgatum	twiggy, wand-like
1059	varicosus	dilated veins	1094	virgatus	twiggy, wand-like
1060	vegeta	vigorous	1095	virginalis	virginal, white
1061	vegetus	vigorous	1096	virginea	virginal, white
1062	venenosa	poisonous	1097	virgineus	virginal, white
1063	venenosus	poisonous	1098	viride	green
1064	venosa	notably veined	1099	viridis	green
1065	venosum	notably veined	1100	viscaria	sticky
1066	venosus	notably veined	1101	viscida	sticky
1067	ventricosa	swollen on one side	1102	viscosa	sticky
1068	ventricosus	swollen on one side	1103	viticella	a little vine
1069	venusta	charming	1104	vivipara	bearing young alive
1070	venustula	charming	1105	viviparus	bearing young alive
1071	venustum	charming	1106	volubilis	twining
1072	vera	TRUE	1107	vulgare	common
1073	vermiculata	worm-like	1108	vulgaris	common
1074	vermiculatum	worm-like	1109	vulneraria	for healing wounds
1075	verna	of spring	1110	xanth-	prefix meaning "yellow"
1076	vernale	of spring	1111	xylorrhiza	woody root
1077	vernalis	of spring	1112	xylorrhiza	woody root
1078	vernum	of spring	1113	yakushmanum	of or from Yakushima, an island in southern Japan
1079	vernus	of spring	1114	yezoalpina	from (the mountains of) Hokkaido
1080	versicolor	variously colored	1115	yezoensis	from (the mountains of) Hokkaido
1081	versicoloris	variously colored	1116	yuccifolium	having Yucca-like leaves
1082	verticillata	whorled	1117	yunnanense	of or from Yunnan, China
1083	verticillatus	whorled	1118	zaleucus	very white
1084	verum	TRUE	1119	zebrina	striped like a zebra
1085	verus	TRUE	1120	zonalis	banded or girdled with a distinct color
