

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES OF WILD FAUNA AND FLORA

Appendices I, II and III

valid from 25 November 2023

Interpretation

- 1. Species included in these Appendices are referred to:
 - a) by the name of the species; or
 - b) as being all of the species included in a higher taxon or designated part thereof.
- 2. The abbreviation "spp." is used to denote all species of a higher taxon.
- 3. Other references to taxa higher than species are for the purposes of information or classification only. The common names included after the scientific names of families are for reference only. They are intended to indicate the species within the family concerned that are included in the Appendices. In most cases this is not all of the species within the family.
- 4. The following abbreviations are used for plant taxa below the level of species:
 - a) "ssp." is used to denote subspecies; and
 - b) "var(s)." is used to denote variety (varieties).
- 5. As none of the species or higher taxa of FLORA included in Appendix I is annotated to the effect that its hybrids shall be treated in accordance with the provisions of Article III of the Convention, this means that artificially propagated hybrids produced from one or more of these species or taxa may be traded with a certificate of artificial propagation, and that seeds and pollen (including pollinia), cut flowers, seedling or tissue cultures obtained in vitro transported in sterile containers of these hybrids are not subject to the provisions of the Convention.
- 6. The names of the countries in parentheses placed against the names of species in Appendix III are those of the Parties submitting these species for inclusion in this Appendix.
- 7. When a species is included in Appendix I, II or III, the whole, live or dead, animal or plant is always included. In addition, all parts and derivatives thereof are also included in the same Appendix unless, for animal species listed in Appendix III and plant species listed in Appendix II or III, the species is annotated with the symbol # followed by a number to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in Appendix II or III refers to a footnote that indicates the parts or derivatives of animals or plants that are designated as 'specimens' subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (ii) or (iii).
- 8. The terms and expressions below, used in annotations in these Appendices, are defined as follows:

Extract

Any substance obtained directly from plant material by physical or chemical means regardless of the manufacturing process. An extract may be solid (e.g. crystals, resin, fine or coarse particles), semi-solid (e.g. gums, waxes) or liquid (e.g. solutions, tinctures, oil and essential oils).

Finished musical instruments

A musical instrument (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is ready to play or needs only the installation of parts to make it playable. This term includes antique instruments (as defined by the Harmonized System codes 97.05 and 97.06; Works of art, collectors' pieces and antiques).

Finished musical instrument accessories

A musical instrument accessory (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is separate from the musical instrument, and is specifically designed or shaped to be used explicitly in association with an instrument, and that requires no further modification to be used.

Finished musical instrument parts

A part (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) of a musical instrument that is ready to install and is specifically designed and shaped to be used exiplicitly in association with the instrument to make it playable.

Finished products packaged and ready for retail trade

Products, shipped singly or in bulk, requiring no further processing, packaged, labelled for final use or the retail trade in a state fit for being sold to or used by the general public.

Powder

A dry, solid substance in the form of fine or coarse particles.

Shipment

Cargo transported under the terms of a single bill of lading or air waybill, irrespective of the quantity or number of containers or packages; or pieces worn, carried or included in personal baggage.

Ten (10) kg per shipment

For the term "10 kg per shipment", the 10 kg limit should be interpreted as referring to the weight of wood of each individual annotated species of genus Dalbergia or Guibourtia present in the items in the shipment. The 10 kg limit is to be assessed only against the individual weights of the portions of wood of each individual annotated species contained in each item of the shipment, and not against the total weight of the shipment. The total weights present of each individual annotated species are considered individually to determine whether a CITES permit or certificate is required for each individual annotated species, and weights of different individual annotated species are not added together for this purpose.

Transformed wood

Defined by Harmonized System code 44.09: Wood (including strips, friezes for parquet flooring, not assembled), continuously shaped (tongued, grooved, rebated, chamfered, V-jointed, beaded, moulded, rounded or the like) along any of its edges, ends or faces, whether or not planed, sanded or end-jointed.

Woodchips

Wood that has been reduced to small pieces.

.

	Appendices		
	1	п	III
FLORA (PLANTS)			
AGAVACEAE Agaves , bear-grass			
	Agave parviflora		
		Agave victoriae-reginae #4	
		Nolina interrata	
		Yucca queretaroensis	
AIZOACEAE Stone plants			
			Conophytum spp. (South Africa)
			Mestoklema tuberosum (South Africa)
Amaryllidaceae Snowdrops, sternbergias			
		Galanthus spp. #4	
		Sternbergia spp. #4	
Anacardiaceae Cashews		······································	
		Operculicarya decaryi	
		Operculicarya hyphaenoides	
		Operculicarya pachypus	
APOCYNACEAE Elephant trunks, hoodias, snakewood			
		Hoodia spp. #9	

^{#4} All parts and derivatives, except:

a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;

b) seedling or tissue cultures obtained in vitro transported in sterile containers;

c) cut flowers of artificially propagated plants;

d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;

e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);

f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and

g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis* or *Phalaenopsis lobbii.*

^{#9} All parts and derivatives except those bearing a label:

[&]quot;Produced from Hoodia spp. material obtained through controlled harvesting and production under the terms of an agreement with the relevant CITES Management Authority of [Botswana under agreement No. BW/xxxxxxx] [Namibia under agreement No. NA/xxxxxxx] [South Africa under agreement No. ZA/xxxxxxx]".

	Appendices		
	1	II.	III
	Pachypodium ambongense Pachypodium baronii Pachypodium decaryi Pachypodium windsorii	Pachypodium spp. #4 (Except the species included in Appendix I)	Raphionacme zeyheri (South Africa)
		Rauvolfia serpentina #2	Napinonacine Zeynen (South Amea)
ARALIACEAE Ginseng			
		Panax ginseng **3 (Only the population of the Russian Federation; no other population is included in the Appendices)	
		Panax quinquefolius #3	
ARAUCARIACEAE Monkey puzzle			
	Araucaria araucana		
ASPARAGACEAE Beaucarnea			
		Beaucarnea spp.	
BERBERIDACEAE Himalyan may-apple			
		Podophyllum hexandrum #2	

^{#4} All parts and derivatives, except:

a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;

b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;

c) cut flowers of artificially propagated plants;

d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;

e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);

f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and

g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

^{#2} All parts and derivatives except:

a) seeds and pollen; and

b) finished products packaged and ready for retail trade.

^{#3} Whole and sliced roots and parts of roots, excluding manufactured parts or derivatives, such as powders, pills, extracts, tonics, teas and confectionery.

	Appendices		
	1	11	III
BIGNONIACEAE Trumpet trees			
		Handroanthus spp. ^{#17} <entry 2024="" 24="" 25="" by="" delayed="" effect="" i.e.="" into="" months,="" november="" until=""></entry>	
		Roseodendron spp. ^{#17} <entry 2024="" 24="" 25="" by="" delayed="" effect="" i.e.="" into="" months,="" november="" until=""></entry>	
		Tabebuia spp. ^{#17} < Entry into effect delayed by 24 months, i.e. until 25 November 2024>	
BROMELIACEAE Tillandsias			
		Tillandsia harrisii #4	
		Tillandsia kammii #4	
		Tillandsia xerographica #4	

-

^{#17} Logs, sawn wood, veneer sheets, plywood and transformed wood.

^{#4} All parts and derivatives, except:

a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;

b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;

c) cut flowers of artificially propagated plants;

d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;

e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);

f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and

g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis or Phalaenopsis lobbii..

		Appendices		
	1	i II	III	
CACTACEAE Cacti				
		CACTACEAE spp. ^{P1 #4} (Except the species included in Appendix I and <i>Pereskia</i> spp., <i>Pereskiopsis</i> spp. and <i>Quiabentia</i> spp. which are not included in the Appendices)		
	Ariocarpus spp.			
	Astrophytum asterias			
	Aztekium ritteri			
	Coryphantha werdermannii			
	Discocactus spp.			
	Echinocereus ferreiranus ssp. lindsayorum			
	Echinocereus schmollii			
	Escobaria minima			
	Escobaria sneedii			
	Mammillaria pectinifera (Includes ssp. solisioides)			
	Melocactus conoideus			
	Melocactus deinacanthus			

P1 Artificially propagated specimens of the following hybrids and/or cultivars are not subject to the provisions of the Convention:

- Hatiora x graeseri
- Schlumbergera x buckleyi
- Schlumbergera russelliana x Schlumbergera truncata
- Schlumbergera orssichiana x Schlumbergera truncata
- Schlumbergera opuntioides x Schlumbergera truncata
- Schlumbergera truncata (cultivars)
- Cactaceae spp. colour mutants grafted on the following grafting stocks: Harrisia 'Jusbertii', Hylocereus trigonus or Hylocereus undatus
- Opuntia microdasys (cultivars).
- ^{#4} All parts and derivatives, except:
 - a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;
 - b) seedling or tissue cultures obtained in vitro transported in sterile containers;
 - c) cut flowers of artificially propagated plants;
 - d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;
 - e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);
 - f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and
 - g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis or Phalaenopsis lobbii..

		Zygosicyos pubescens	
		Zygosicyos tripartitus	
CUPRESSACEAE Cypresses			
	Fitzroya cupressoides		
	Pilgerodendron uviferum	Widdringtonia whytei	

^{#4} All parts and derivatives, except:

- c) cut flowers of artificially propagated plants;
- d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;
- e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);
- f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and
- g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis or Phalaenopsis lobbii.

#2 All parts and derivatives except:

- a) seeds and pollen; and
- b) finished products packaged and ready for retail trade.

a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;

b) seedling or tissue cultures obtained in vitro transported in sterile containers;

	Appendices		
	1	··· II	III
CYATHEACEAE Tree-ferns			
		Cyathea spp. #4	
CYCADACEAE Cycads			
		CYCADACEAE spp. #4 (Except the species included in Appendix I)	
	Cycas beddomei		
DICKSONIACEAE Tree-ferns			
		Cibotium barometz #4 Dicksonia spp. #4 (Only the populations of the Americas; no other population is included in the Appendices)	
DIDIEREACEAE Alluaudias, didiereas			
		DIDIEREACEAE spp. #4	
DIOSCOREACEAE Elephant's foot			
		Dioscorea deltoidea #4	
DROSERACEAE Venus flytrap			
		Dionaea muscipula #4	
EBENACEAE Ebonies			
		Diospyros spp. #5 (Only the populations of Madagascar; no other population is included in the Appendices)	

a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;

b) seedling or tissue cultures obtained in vitro transported in sterile containers;

c) cut flowers of artificially propagated plants;

d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;

e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);

f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and

g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis or Phalaenopsis lobbii.

^{#5} Logs, sawn wood and veneer sheets.

	Appendices		
	I I	II .	III
EUPHORBIACEAE Spurges			
		Euphorbia spp. P2 #4 (Succulent species only, except the species included in Appendix I and Euphorbia misera which is not included in the Appendices)	
	Euphorbia ambovombensis		
	Euphorbia capsaintemariensis		
	Euphorbia cremersii (Includes the forma viridifolia and the var. rakotozafyi)		
	Euphorbia cylindrifolia {Includes the ssp. tuberifera}		
	Euphorbia decaryi (Includes the vars. ampanihyensis, robinsonii and spirosticha)		
	Euphorbia francoisii		
	Euphorbia moratii (Includes the vars. antsingiensis, bemarahensis and multiflora)		
	Euphorbia parvicyathophora		
	Euphorbia quartziticola		
	Euphorbia tulearensis		

Artificially propagated specimens of cultivars of *Euphorbia trigona*, artificially propagated specimens of crested, fan-shaped or colour mutants of *Euphorbia lactea*, when grafted on artificially propagated root stock of *Euphorbia neriifolia*, and artificially propagated specimens of cultivars of *Euphorbia* 'Milii' when they are traded in shipments of 100 or more plants and readily recognizable as artificially propagated specimens, are not subject to the provisions of the Convention.

^{#4} All parts and derivatives, except:

a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;

b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;

c) cut flowers of artificially propagated plants;

d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;

e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);

f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and

g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis or Phalaenopsis lobbii.

AGACEAE Mongolian oak			
			Quercus mongolica #5 (Russian Federation)
FOUQUIERIACEAE Ocotillos			
	Fouquieria fasciculata Fouquieria purpusii	Fouquieria columnaris #4	
GERANIACEAE Geraniums			
			Monsonia herrei (South Africa)
			Monsonia multifida (South Africa)
			Monsonia patersonii (South Africa)
			Pelargonium crassicaule (South Africa)
			Pelargonium triste (South Africa)
GNETACEAE Gnetum			
			Gnetum montanum #1 (Nepal)
JUGLANDACEAE Gavilan			
		Oreomunnea pterocarpa #4	
AURACEAE Brazilian rosewood			
		Aniba rosaeodora #12	

Logs, sawn wood and veneer sheets.

- a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;
- b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- c) cut flowers of artificially propagated plants;
- d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;
- e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);
- f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and
- g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis* or *Phalaenopsis lobbii*.
- ^{#1} All parts and derivatives, except:
 - a) seeds, spores and pollen (including pollinia);
 - b) seedling or tissue cultures obtained in vitro transported in sterile containers;
 - c) cut flowers of artificially propagated plants; and
 - d) fruits, and parts and derivatives thereof, of artificially propagated plants of the genus Vanilla.

^{#4} All parts and derivatives, except:

Logs, sawn wood, veneer sheets, plywood and extracts. Finished products containing such extracts as ingredients, including fragrances, are not considered to be covered by this annotation.

		Cistanche deserticola #4	
PALMAE (ARECACEAE) Palms			
		Beccariophoenix madagascariensis #4 Dypsis decaryi #4	

P3 Artificially propagated hybrids of the following genera are not subject to the provisions of the Convention, if conditions, as indicated under a) and b), are met: Cymbidium, Dendrobium, Phalaenopsis and Vanda:
a) Specimens are readily recognizable as artificially propagated and do not show any signs of having been collected in the wild such as mechanical damage or strong dehydration resulting from collection, irregular growth and heterogeneous size and shape within a taxon and shipment, algae or other epiphyllous organisms adhering to leaves, or damage by insects or other pests; and

Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.

- a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;
- b) seedling or tissue cultures obtained in vitro transported in sterile containers;
- c) cut flowers of artificially propagated plants;
- d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;
- e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);
- f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and
- g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis or Phalaenopsis lobbii.

b) i) when shipped in non-flowering state, the specimens must be traded in shipments consisting of individual containers (such as cartons, boxes, crates or individual shelves of CC-containers) each containing 20 or more plants of the same hybrid; the plants within each container must exhibit a high degree of uniformity and healthiness; and the shipment must be accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid; or

ii) when shipped in flowering state, with at least one fully open flower per specimen, no minimum number of specimens per shipment is required but specimens must be professionally processed for commercial retail sale, e.g. labelled with printed labels or packaged with printed packages indicating the name of the hybrid and the country of final processing. This should be clearly visible and allow easy verification.

P4 Seedling or tissue cultures obtained *in vitro* and transported in sterile containers are not subject to the provisions of the Convention only if the specimens meet the definition of 'artificially propagated' agreed by the Conference of the Parties.

a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from Beccariophoenix madagascariensis and Dypsis decaryi exported from Madagascar;

b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;

c) cut flowers of artificially propagated plants;

d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus Vanilla (Orchidaceae) and of the family Cactaceae;

e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera Opuntia subgenus Opuntia and Selenicereus (Cactaceae);

f) finished products of Aloe ferox and Euphorbia antisyphilitica packaged and ready for retail trade; and

g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of Bletilla striata, Cycnoches cooperi, Gastrodia elata, Phalaenopsis amabilis or Phalaenopsis lobbii.

P5 Artificially propagated specimens of cultivars of Cyclamen persicum are not subject to the provisions of the Convention. However, the exemption does not apply to such specimens traded as dormant tubers.

^{#2} All parts and derivatives except:

a) seeds and pollen; and

b) finished products packaged and ready for retail trade.

^{#8} Underground parts (i.e. roots, rhizomes): whole, parts and powdered.
